HUMAN RESOURCE DEVELOPMENT
LOK SABHA**

UNSTARRED QUESTION NO:2915

ANSWERED ON:20.03.2017

New Grading Pattern by NAAC

Reddy Shri A.P. Jithender

Will the Minister of HUMAN RESOURCE DEVELOPMENT be pleased to state:

- (a) whether it is a fact that the National Assessment and Accreditation Council (NAAC) has introduced a new grading pattern this year and if so, the details thereof along with the criteria used to grade such institutions;
- (b) whether this new pattern would introduce healthy competition among the institutions and improve the quality of such institutions;
- (c) the details of the educational institutions that have been graded under this new system along with their grades, State/UT-wise; and
- (d) the institutions which have bagged the prestigious A++ grade under this pattern and whether their number is abysmally low and if so, the reasons therefor and the steps undertaken by the Government to improve the situation?

Answer

MINISTER OF STATE IN THE MINISTRY OF HUMAN RESOURCE DEVELOPMENT
(Dr. MAHENDRA NATH PANDEY)

(a) to (c): Yes Madam. The National Assessment and Accreditation Council (NAAC) has introduced a revised grading pattern with effect from 1st July 2016. The NAAC has identified the following seven criteria to serve as the basis for its assessment of Higher Educational Institutions (HEIs):

- ? Curricular Aspects
- ? Teaching-learning and evaluation
- ? Research, consultancy and extension
- ? Infrastructure and learning resources
- ? Student support and progression
- ? Governance , Leadership and Management
- ? Innovations and Best Practices

As per the revised grading system, HEIs are awarded eight types of letter grades viz. A++, A+, A, B++, B+, B, C and D. HEIs with Cumulative Grade Point Average (CGPA) ranging between 3.76 and 4.00 get the highest grade of accreditation i.e. 'A++' whereas, institutions with CGPA of 1.5 or less are not accredited. The revised grading pattern has the potential to make differentiation within HEIs in terms of their qualitative performance and to ensure healthy competition among these institutions to improve the standards of Higher Education.

Till 22nd February, 2017, NAAC has accredited 1,256 HEIs consisting 1,197 Colleges and 59 Universities under the revised grading system. The State/UT-wise institutions graded under the revised system of grading are available at <http://www.naac.gov.in/docs/Institutions%20accredited%20by%20NAAC%20under%20new%20grading%20system.doc>

(d): Under the new grading pattern, 01 University and 03 Colleges have been assessed and accredited at A++ between 1st July, 2016 and 22nd February, 2017. Higher education accreditation is a system of quality assurance under which services and operations of HEIs or programs are evaluated by an external agency to determine if applicable standards of education are met. The highest grade of accreditation depends on how the HEIs have taken steps to improve upon the education infrastructure as per the set standards/criteria outlined by NAAC under the revised grading system. The revised grading system provides a larger scope for healthy competition in the education sector and HEIs which are graded less than 'A++' are expected to strive towards achieving the standards set by NAAC for the award of the highest grading.
